My Big Formula:

$$z = \sqrt[n]{r}\left(\cos\left(\theta_0 + 2p\pi/n\right) + i\sin\left(\theta_0 + 2p\pi/n\right)\right) \tag{1}$$

...

Blablabla

...

My Big Formula, again:

$$z = \sqrt[n]{r}\left(\cos\left(\theta_0 + 2p\pi/n\right) + i\sin\left(\theta_0 + 2p\pi/n\right)\right)$$
